Aims & objectives

Eco Challenge is an online game learning programme (developed by UNEP-DHI Center) which aims to raise awareness of the importance and challenges of managing limited water resources in the face of rapid economic development worldwide. This is the 3rd competition in Hong Kong.

Key learning points to students

- Enhance students' understanding on sustainability and ecological civilization
 - Reflect how HK can achieve sustainable water management
 - Cultivate self-directed learning skills
 - Nurture independent & logical thinking within sustainability framework
 - Learn to be responsible global citizens
- 

Enrolled countries

AUSTRALIA

HONG KONG

INDIA

INDONESIA

MALAYSIA

MAURITIUS

PHILIPPINES

SINGAPORE

SOUTH KOREA

TAIWAN

THAILAND

VIETNAM
