

2015

# ECO CHALLENGE

UNEP-DHI CENTRE  
for Water and Environment

A global game-based learning programme for 11 to 17 years old

### International organizers

UNEP-DHI PARTNERSHIP  
Centre on Water and Environment

### Organizers in Hong Kong

International official website  
<http://www.the-eco-challenge.org/>

### Aims & objectives

Eco Challenge is a global game-based learning programme (developed by UNEP-DHI Center) which aims to raise awareness of the importance and challenges of managing limited water resources in the face of rapid economic development worldwide. This is the 3<sup>rd</sup> competition in Hong Kong.

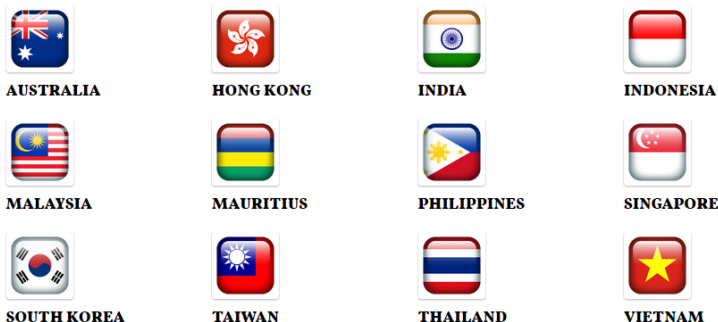

### Key learning points to students

- Enhance students' understanding on sustainability and ecological civilization
- Reflect how HK can achieve sustainable water management
- Cultivate self-directed learning skills
- Nurture independent & logical thinking within sustainability framework
- Learn to be responsible global citizens

Programme fee **Package 1:** \$100 / team (2 students) **OR** **Package 2:** \$500 / school (max: 50 teams)

**\*\*Top 6 winning teams have to pay for the costs of visiting Korea**

### Enrolled countries
